

Saddletree Stables Leasing Guidelines

1. All leasers must wear a helmet while mounted.
2. Leases are scheduled in two-hour blocks. Only one of those hours can be for riding. The other is for grooming, tacking, grazing, and general care for your lease horse.
3. There is NO JUMPING allowed during a lease.
4. Leases are allowed to ride in designated arenas only, NO TRAIL RIDING.
5. Maximum of 4 full laps of canter around the arena (2 laps each way) with breaks for the horse in between each lap.
6. If you are unable to make it out to the barn for your lease you need to notify your instructor immediately so your horse can be used for another lesson or turned out if they were left in for you.
7. Leases are done month to month and payment for leases is due at the beginning of each month.
8. Leasers must take one lesson a week as part of their lease. Lesson rates drop to \$25 for a semi-private and \$30 for private lesson.
9. Only one lease ride may be made up per month (if it is missed due to weather, vacation, sickness, etc).
10. Two and Three day leases are allowed one weekend day for a lease (the other day(s) must be weekdays).

The undersigned has read the above rules and guidelines and understands the obligation and responsibilities of participating in the lease program offered at Saddletree Stables.
